BABYLON

BABYLON

- Please **pay attention** to the training and ask questions if something is not clear.
- **We encourage you** to ask questions if you want to know more.
- **Let us know** if you have thoughts about the topic of the training and the training material.

At the end of the training you will have to fill out a **quiz** to evaluate your knowledge.

Gowning, Hand washing and Conduct Training

BABYLON

- When you work at Babylon LLC you will have to follow strict and mandatory rules.

- All these strict rules serve one purpose, to ensure your safety and the safety and quality of our products.

- This training session is going to teach you the importance of the proper conduct in the facility and the rules to keep the facility, equipment and products clean and safe.

BABYLON

Cleanliness of the facility

Cleanliness of the facility is our top priority.

Gowning: The process of dressing in appropriate attire before entering production areas.

Wearing the right attire, hand washing and proper conduct is required to **prevent the contamination of**:

- the production area
- the storage area of the facility
- equipments
- raw materials
- finished products

Cleanliness of the facility is important to prevent pest infestation.

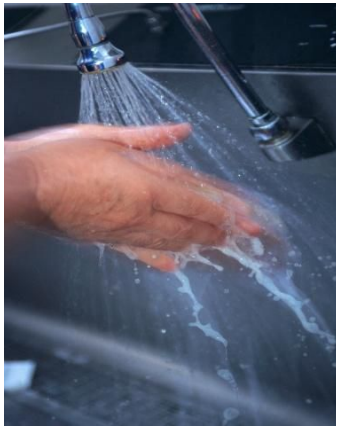
BABYLON

Cleanliness of the facility

To achieve the cleanliness of the facility you must follow rules and protocols.

Wearing the required attire and washing hands is essential to keep the facility clean.

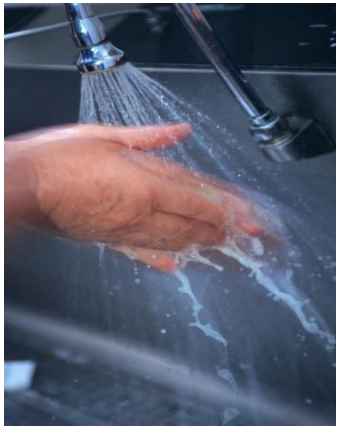
It is your responsibility to follow the rules of gowning, hand washing and conduct.



Gowning, Hand washing and Conduct Training

BABYLON

If you are not sure what to do or if you are not sure that what you are doing is right, always ask your supervisor.



BABYLON

Required dress code for the facility

Hairnet

Every time you enter or leave the facility a new hairnet is issued.

You must wear hairnet in the facility.
Facial hair must be covered with beard net.

Hairnets and beard nets must be worn to prevent hair from contaminating products.

BABYLON

Required dress code for the facility

Shoe Covers

Shoe covers must be worn to prevent dirt and debris from being brought into the production area.

Coveralls

All personnel must change into protective coveralls provided by the facility before entering production areas.

BABYLON

Required dress code for the facility

Production Area

Wear hairnet, gloves, shoe covers and coveralls <u>all the time</u> in the production area.

Remove the shoe covers, hairnet, coverall and gloves when you leave the facility.

BABYLON

Protective Coverall

- Protective Coverall and lab jackets must be clean and in good condition.
- Dirty or damaged Protective Coverall an must be replaced immediately.
- If the Protective Coverall is contaminated with raw material, you must remove and dispose the coverall and than your gloves. You must wash your hands and take new coverall and gloves.
- Protective Coverall and lab jackets should be stored in designated areas when not in use.

BABYLON

Wear mask when you are filling a product

You must wear a mask when you are filling a product to protect the product from germs and bacteria.

The exhaled air contains tiny water droplets what can carry bacteria. These droplets can fly in the air for few meters. By wearing the mask you can stop the spread of these droplets. Mask will also protect the products if you need to sneeze.

The mask must cover your mouth and nose.

Place the mask over your mouth, nose, and chin, and tie it behind your head or use the ear loops.

BABYLON

Protective Coverall, gloves, shoe covers and masks will keep you safe.

- It is important to wear coveralls, gloves shoe covers and masks because they will **protect you from the potential adverse effects of concentrated raw materials**.
- Coveralls, gloves, shoe covers and masks are called personal protective equipments or PPE.
- Wearing the PPE will not just protect the products from contamination but will protect you from hazards.

BABYLON

Wash Your Hand!

When to Wash Hands:

- Before starting work
- After using the restroom
- After eating, drinking, or smoking
- After handling raw materials or waste
- After any activity that could contaminate hands

BABYLON

Wash Your Hand!
