BABYLON

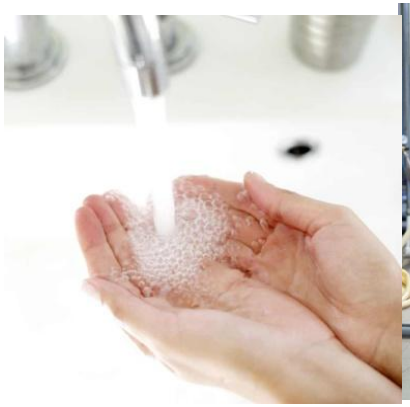
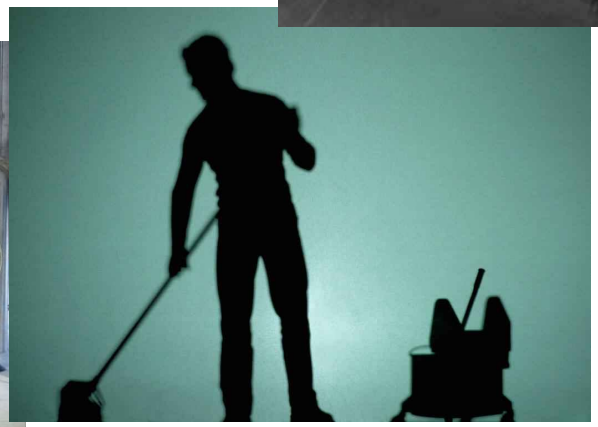
Maintain the Facility

We are **<u>all responsible</u>** to help maintain the cleanliness of the facility, keeping it in Top Notch condition.

Keeping the facility clean prevent pest infestation and protects the products from contamination.





BABYLON

Cleaning and Sanitation

Cleaning: Removal of dirt, dust, and other visible contaminants.

Use detergents and cleaning products.

Sanitizing: Reduction of microorganisms to safe levels using disinfectants.

Disinfectants are chemicals that are very effective to kill bacteria.

Use the 70:30 mixture of ethanol and water (7 part pure ethanol and 3 part water).

Use bleach solution to clean the floor.

Dilute bleach with water. Add 8 oz bleach to 1 gallon water.

Premises Cleaning and Sanitation Training

BABYLON

Sanitation and cleanliness of the facility and equipment is crucial.

Cleaning and sanitation eliminate dirt and kills the germs.

- Bacteria are carried on the skin as part of the normal skin flora.
- Bacteria are dispensed by coughing even if you are not sick.
- Germs are spread with dirty hands.
- Fungal spores and bacteria can be carried with dirty, muddy, dusty shoes and street cloth.
- Food, lunchboxes, plates can carry mold and bacteria.
- Cell phones and other personal items such as watches, and jewelry are also carry germs.

Premises Cleaning and Sanitation Training

BABYLON

Sanitation and cleanliness of the facility and equipment is crucial.

Cleaning and sanitation eliminate dirt and kills the germs

Follow the cleaning and sanitizing procedures!

Follow the rules of conduct in the facility.

- Wear the required attire and PPE!
- Wash your hands!
- Eat only in the designated areas!
- Do not bring personal items to the production area!

<u>Protect the production from germs!</u>

BABYLON

Cleaning

Approved cleaning agents:

- Dawn dish soap 1 drop per gallon of warm tap water).

  Use Dish soap for washing kettles, utensils, spatulas, mixing tools and equipment parts that contact the product.

- Use “Serenade Lemon All Purpose Neutral Cleaner” brand cleaner for cleaning floors using either a mop or the autoscrubber. Add 2 oz cleaner per gallon of hot water.
- Use bleach solution to mop the floor.

  Add 8oz bleach to 1 gallon of water.

  Bleach solution must be made freshly before cleaning.

  Bleach is corrosive! Do not use bleach on stainless steel surfaces.

Premises Cleaning and Sanitation Training

BABYLON

Personal Protective Equipment (PPE) for cleaning:

You are required to wear the following PPE

- Coverall
- Nitrile gloves
- Hair net
- Shoe cover
- Eye protection: use eye protection when you are working with bleach.

BABYLON

Cleaning equipment

- Autoscrubber
- Mop and Mop Bucket
- Tank Brushes
- Sponges

  Use the green sponges for bleach solution.

  Use the blue sponges for soapy water

- Paper Towels
- Spray Bottles
- Floor Squeegee
- Hot Water Hose
- Terry Towels
- Broom and dust pan

BABYLON

Cleaning Procedures - Daily Cleaning

- Sweep up dust in the production, storage and filling area.

Use the **Autoscrubber to clean the floor**.

- Start measuring 2 oz of Serenade Lemon All Purpose Neutral Cleaner for every gallon of hot water.
- We us 5 gallons so weigh out 10 oz of Serenade Lemon All Purpose Neutral Cleaner.
- Be sure to drain the autoscrubber after use, never leave the autoscrubber filled with ANY dirty water

Areas to be cleaned

- Filling and packaging area workstations and floor (this includes by the tube and sample machine)
- Batch area workstations and floor
- Laboratories and quality control area workstations and floors
- Employee break rooms

BABYLON

Cleaning Procedures - Daily Cleaning

- Run floor cleaning machine in high traffic areas (Follow the yellow lines)
- Wipe down **surfaces and equipment** with soap and water then spray with a 70:30 ethanol:water.
- Empty waste containers and replace liners.
- Clean with soap and water and Sanitize Sinks, faucet, trench drain and white drain basin with associated black PVC piping.

Mop the floor with bleach.

Dilute 8oz bleach in 1 gallon water.

Mop the following areas:

- Floor at the sink area and under the sink
- Floor at the main drains at dish area
- Floor around the water system

Premises Cleaning and Sanitation Training

BABYLON

Cleaning Procedures - Daily Cleaning

Follow the directions of the Daily Facility Sanitation Record

Fill out the record as you complete the cleaning.

Sign it with your initials.

The Quality Control Manager will check the cleanliness of all areas after you are finished.

BABYLON	Document Name: Daily Facility Sanitation Record	Page: 1 of 4
	Document Number: 4.10.1	Revision No: 09 Effective Date: 12/03/2025
Reference Document Change Control for Approval Signatures of Process Owner and Approver		

Date: _____ Complete all the cleaning tasks listed below. Mark each task with a check mark once it has been completed. Add an N/A next to any task if the cleaning was not needed. Associates must ensure the floor is free of debris and may sweep the area as needed.
Complete todas las tareas de limpieza que se enumeran a continuación. Marque cada tarea con una marca de verificación una vez que se haya completado. Agregue N/A junto a cualquier tarea si la limpieza no fue necesaria. Los asociados deben asegurarse de que el piso esté libre de residuos y pueden barrer el área según sea necesario.

Morning Group Associate Cleaning Tasks – Total: 13 tasks
Tareas de limpieza del grupo de la mañana – Total: 13 tareas

#	Floor / *Piso*	Time (AM) & Initial	QC
1	☐ **Clean high traffic area with the Floor machine 15 MIN** *Limpie el área de alto tráfico con la máquina de pisos.*		
2	☐ **Clean floor at Tube Machine area with the Floor machine 5 MIN** *Limpie el piso en el área de la máquina de tubos con la máquina de pisos*		
3	☐ **Sweep the floor of Ingredient storage room 5 MIN** *Barra el piso del cuarto de almacenamiento de ingredientes.*

BABYLON

Cleaning Procedures - Weekly Cleaning

Perform a more thorough cleaning of production and storage areas.

- This involves dusting around tables, around the water station, behind the compressor, by the printer.
- Use a mop in hard to reach areas.
- Clean and sanitize walls in the dish area, water system area and windows.
- Inspect and clean air vents and filters.
- Mop the floor with diluted bleach (8 oz bleach in 1 gallon water)
- Check for pests
- Clean spiders from the break room

Fill out the Weekly Cleaning Record.

BABYLON	Document Name: Weekly Cleaning Record	Page: 1 of 1
	Document Number: 4.10.2	Effective Date: 12/29/25 Revision 05
Reference Document Change Control for Approval Signatures of Process Owner and Approver		

If the scheduled day or any subsequent scheduled day falls on a holiday or non-working day, the related cleaning tasks must be carried out on the nearest working day before the holiday.
Si el día programado o cualquier día programado posterior cae en un día feriado o no laborable, las tareas de limpieza correspondientes deberán realizarse en el día laborable más cercano antes del feriado.

Weekly cleaning from Monday to Friday. Period: _____

Day	Description	Date & Time	Initial	QC
Monday	☐ **Deep clean and scrub the wall behind the sink using soap.** *Limpiar y tallar a fondo la pared detrás del fregadero con jabón*			
Tuesday	☐ **Clean pipes under the sink, the sink drains (inside sink) and the faucet handles using soap water.** *Limpiar las tuberías debajo del fregadero, los desagües del fregadero (por dentro) y las manijas del grifo usando jabón* ☐ **Spray and sanitize the sink area with alcohol.** *Rociar y desinfectar el área del fregadero con alcohol*			

BABYLON

Cleaning Procedures - Monthly Cleaning

- Conduct **deep cleaning** of all areas within the Babylon Facility.
- Follow the to-do list of the Monthly Cleaning log.

- Disassemble and clean equipment that requires monthly maintenance.

- Fill out the Monthly Cleaning Log.
- The cleaning will be checked and validated by the Quality Control Manager.

BABYLON	Document Name: Monthly cleaning log	Page: 1 of 1
	Document Number: 4.10.4	Revision No: 01 Effective Date: 01/08/2025
Reference Document Change Control for Approval Signatures of Process Owner and Approver		

Monthly cleaning. Date: _____

Date	Time	Description	Initials	Validated
		☐ Storage rooms: Move and sweep under pallets ☐ Storage rooms: Mop floor in storage rooms ☐ Storage rooms: Dust the walls behind the pallets ☐ Storage rooms: Clean windows and window seals ☐ Production floor: Remove all empty cardboard boxes from production area ☐ Production floor: Mop PPE room, remove empty boxes.		

BABYLON

As-needed Cleaning

- Clean spills immediately to prevent contamination.
- Report any spilled material what you see to your supervisor.
- Work proactively to keep the facility clean.
- If you see something, say something.

- Address any specific cleaning needs identified by staff or during inspections.

Premises Cleaning and Sanitation Training

BABYLON

Sanitation Procedures

Surface Sanitation

- Apply 70:30 ethanol:water to surfaces after cleaning.
- Allow sanitizing agents to remain on the surface for the 2 mins.
- Use paper towels to wipe dry or a Terry Towel.
